

**DESCRIPTION OF FLEET OF REPUBLIC AIRLINES**

*14 C.F.R. §203.4(n)*

During the first full year of operations, Republic plans to operate up to twenty 50-seat Embraer EMB-145 aircraft in its US Airways Express code-share operation. While the Regional Jet Service Agreement between US Airways and Republic allows for up to twenty-three (23) aircraft, the parties have agreed to start with an initial fleet of twenty (20) aircraft during the first year, pursuant to the tentative delivery schedule set forth in this exhibit.

Republic's parent, RAH has negotiated aircraft acquisition agreements with Embraer and will assign those agreements to Republic and assist Republic in arranging for third party financing for the aircraft.
