Washington, DC 20590

Re: Air 4000, Inc dba HAN Airways; Docket OST-95-965

Dear Mr. Lawyer:

Attached is a working capital commitment of \$3.75 million, which I guarantee to make available to Air 4000 (dba HAN Airways), if needed, to cover its normal operating costs. Please note that I guarantee to make these funds available for at least one year after Air 4000 (dba HAN Airways) commences operations. In the event that Air 4000 (dba HAN Airways) generates \$3.75 million of available cash, and deposits those funds in its operations accounts to be made available for the remainder of the year, the obligations of Anthony D. DiNapoli will terminate. Also, in the event that Air 4000 (dba HAN Airways) is able to arrange other sources of financing acceptable to the Department of Transportation, the obligations will terminate. At no time does this working capital commitment exceed \$3.75 million during the first year of Air 4000's (dba HAN Airways) operations, per the Department's 90-day revenue test.

  
Anthony D. DiNapoli

  
Anthony P. DiNapoli, individually
