I talked to Ray Benning today and he has talked to Bob Miller at IPA and he has agreed to no be an impediment to any hiring of Challenge Crewmembers and in fact pledged his support in our efforts.

Ray and the UPS airline director have been playing telephone tag and they are supposed to talk tomorrow about dates for our meeting, which Ray hopes will be in the next 2-3 weeks.

I have talked with Nick regarding UPS trying to expand into Brazil and Argentina and will explore what can be done through the International's attorney's.

Please pass this along to those not on my e-mail list.

Thanks
Steve Greenwell
