

I would like to voice opposition to the proposed termination of service at Northwest Alabama Regional Airport. The availability of commercial air travel in our community is vital to business people both locally as well as regionally,nationally and internationally.

The choices are few and the service has been good from Northwest Airlink. We here in the community are prepared to unite in our efforts to keep Northwest Airlink. We urge the DOT to reject the request to terminate services. Thank you in advance for your response and consideration.

Keith Haden
