Hon. Mary E. Peters  
Secretary of Transportation  
United States Department of Transportation  
1200 New Jersey Ave, SE  
Washington, DC 20590

Monday, May 12, 2008

Dear Secretary Peters;

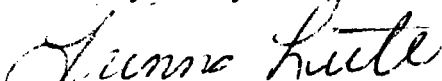

I am writing to let you know that Morrison Express strongly supports the application that Evergreen International Airlines has filed for authority to provide scheduled all-cargo service between Shanghai, China and Columbus Ohio. We were pleased to learn of Evergreen's plans to operate this service, and welcome the opportunity to let you know of our support.

We believe there is a strong need for service between Shanghai and Columbus that the airlines currently operating in the market cannot meet. Evergreen's proposal will help fill this gap by offering six widebody frequencies per week between the US and Shanghai. This is an important increase in capacity and in frequency. It will enable shippers such as our company to bring their time-sensitive products to market more quickly.

Evergreen is well-known to shippers in the US-China markets. For years it has conducted a successful cargo charter operation in China. It is presently offering highly reliable and professional services within the limitations imposed by the charter authority that it must utilize. We are pleased to know that in the past several years, Evergreen has operated the major portion of the available charters between the US and China. Its ability to make up and break up shipments is particularly valuable since it removes a significant burden that we would otherwise face. This is a capability that other carriers in the market simply do not offer.

In summary, we would welcome Evergreen's entry into the US-Shanghai scheduled all-cargo markets. We would expect to become regular users of the services that it will offer if approval is granted.

Thank you for your consideration,

  
Trinna Lute  
District Operations Manager
